Education

Computer Science Engineering,BE
AMC Engineering College
August 2019 - June 2023

12th(science with Cs)
Kendriya Vidyalaya Tamulpur
April 2017 - April 2018

10th(Matriculation)
Kendriya Vidyalaya Tamulpur
April 2015 - April 2016

Technical Skills

CSS3 · HTML5 · React · Java · JDBC · Hibernate · Springboot · Angular

Soft Skills

Leadership · Communication · Teamwork

Certifications

Java Full Stack Development 🔗
Edubridge Digital Academy(Capgimini sponsored)

Nikita Jha
Full Stack Web Developer

Professional Summary

Dynamic CS graduate with a passion for innovative Java software solutions. Strong background in back-end development and collaborative teamwork, ready to excel in an entry-level software development role. Eager to bring fresh perspectives and technical expertise to a forward-thinking Java development team.

Projects

Sorting Visualizer Live Demo Link Github Repo Link

JavaScript · HTML5 · CSS3

- Developed an interactive sorting visualization tool using JavaScript, HTML5, and CSS3 to enhance understanding of sorting algorithms.
- Implemented various sorting algorithms like Bubble Sort, Selection Sort, Merge Sort, and Insertion Sort for real-time visualization.

Grocery Management System Github Repo Link

Git · java · Springboot · Hibernate · Angular · Responsive Web Design · HTML5 · CSS3

- Developed a robust backend service using Spring Boot to ensure reliable performance and seamless operations.
- Created and optimized database schemas and queries in MySQL to enhance data handling efficiency.
- Implemented responsive and interactive frontend components using Angular for a smooth user experience.

TO-DO-List Live Demo Link Github Repo Link

React · HTML5 · CSS3 · JavaScript

- Developed the frontend components using React.js, providing a user-friendly interface for task management.
- Implemented functionalities to add, edit, and delete tasks, ensuring effective task organization.

Car Loan EMI Github Repo Link

Java · IDE · XML · JUnit

- Developed an intuitive user interface for the Android application to compute car loan EMIs.
- Ensured accurate EMI calculation using standard financial formulas for user-specific inputs.
